How do I order with Approvals configured?

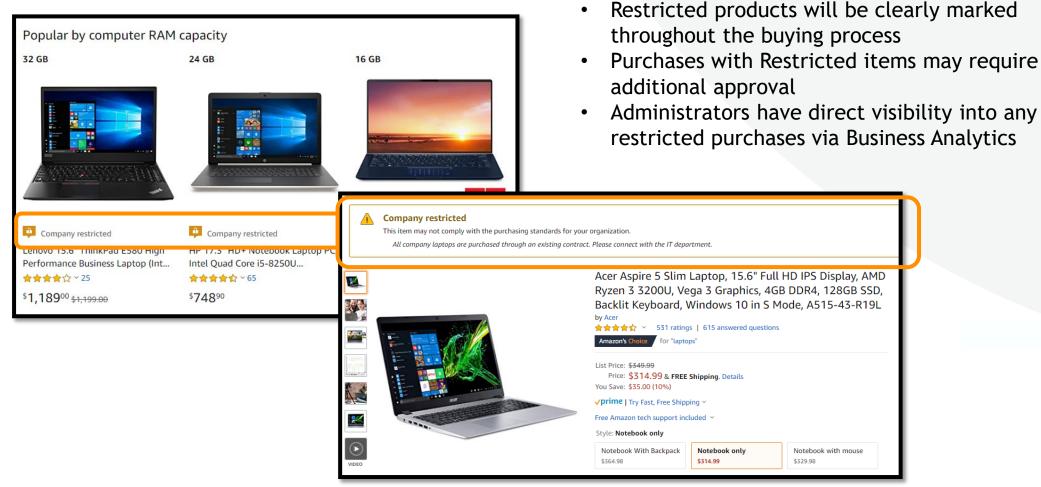

- Depending on your role, some or all of your orders may require approval.
- There are no additional steps to take to submit your order for approval. Check out as you normally would and you will see the option at checkout.
- Your order will not be processed until it is approved by the appropriate approver. Keep this in mind for shipping timelines.
- You will be notified over email once your order is submitted and then again once your order has been approved and processed.
 Just as with a normal order on Amazon, you will also receive relevant shipping updates.
- If your order is not approved within 7 days, the order will automatically be canceled; however, the items in your order will not be deleted. If your order is canceled, you will need to submit the order again for approval.
