

Progressive Discounts

Unlock discounts on repeat purchases

What are Progressive Discounts?

- Progressive Discounts are available on eligible items based on volume purchased by all users on the Business account across the last twelve months.
- Once a discount for a product has been unlocked, the Progressive Discount is applied to all purchases of that product across the organization, unless there are better prices available (e.g., limited time deal promotion).
- Progressive Discounts are currently available on thousands of items on the marketplace across numerous categories.

Identifying Unlocked Progressive Discounts

- Any item that has an unlocked Progressive Discount will surface on the results page in a grey box.
- If you click into the product detail page, a notice will alert you to the discount % your organization is currently getting on the item. Click on the blue 'Progressive Discount' hyperlink under the price to identify tiered discounts.
- The Tiers will surface and indicate the quantity and discount parameters.
